Executive Summary

Introduction
As part of the University of California Office of the President (UCOP) 2020-21 fiscal year (FY) audit plan, Internal Audit completed an audit of the Clinical Enterprise Management Recognition Plan (CEMRP1) for the six UC health systems and UC Health.

CEMRP1 (the Plan), established by the Regents in July 2010, provides the opportunity for at-risk variable financial incentives to those employees responsible for attaining or exceeding key clinical enterprise objectives. Participants in plan-eligible job positions are defined as the senior leadership of the clinical enterprise who have significant strategic impact and a broad span of control with the ability to effect enterprise-wide change. The Plan is supplemented with documented guidelines that establish roles, responsibilities, processes and procedures related to implementing the Plan.

At the beginning of each plan year, systemwide, institutional, and individual performance objectives are developed and approved by medical center leadership, the chancellors, UC Health, and an independent Administrative Oversight Committee (AOC) described below. Objectives relate to one or more of the following: financial performance, quality improvements, patient satisfaction, key initiatives in support of the strategic plan, and people and other resource management.

At the end of the plan year, participant performance is reviewed and rated as one component of the award recommendation. A second component is the local medical center (institutional) performance against plan, and a third component is systemwide (clinical enterprise) performance. If a participant’s total cash compensation is over the established threshold of $323,700, awards are reported to the Regents. In addition, the Regents must approve any awards to executive officers. Beginning with the FY 2016-17 plan year, Tier I participants (medical center CEOs and Presidents and the Executive Vice President, UC Health) no longer have individual participant objectives but share common long-term objectives. The first payout for these long-term objectives was in FY 2018-19.

The AOC is assigned oversight of the plan, including development, governance and interpretation. CEMRP1 AOC membership includes the Executive Vice President – Chief Operating Officer, Vice President – Human Resources, Executive Director – Compensation Programs and Strategy, and the chancellors from the six campuses that have health services. UC Riverside now has representation within this group. The AOC may consult with the Executive Vice President, UC Health during its deliberations. UC Legal will be consulted if there are any questions about the application of the Political Reform Act in this context. The Senior Vice President – Chief Compliance and Audit Officer assures that periodic auditing and monitoring occurs, as appropriate. Non-material changes to the Plan may be approved by the AOC while material or substantive changes require the approval of the President and the Regents Governance Committee and Health Services Committee.

In addition to CEMRP1, there is a separate incentive plan (CEMRP2) for those health system employees below the senior management level responsible for attaining or exceeding key clinical
enterprise objectives. The AOC also provides oversight of this plan. This audit included a limited review of CEMRP2 awards. We reviewed award fund sources and compared AOC-approved estimated award payouts to actual award payouts.

**Objective and Scope**

The primary objective of this audit was to assess the accuracy of the FY 2019-20 CEMRP1 award calculations and award compliance with the Plan. We evaluated award criteria for accuracy and compliance for the systemwide, institutional, and participant performance reviews and award calculations. Our scope included award calculations that were based on the data provided by medical center management. We reviewed the systemwide and institutional results as well as a sample of FY 2019-20 participant performance results and verified the accuracy of the award calculations. We also reviewed additional supporting documentation provided by the health systems related to their quantitative institutional objectives as well as those related to systemwide objectives.

We assessed the FY 2020-21 CEMRP1 systemwide and institutional performance objectives for compliance with the Plan in addition to a sample of participants’ objectives.

For both CEMRP1 and CEMRP2, we reviewed the sources of funds used by the health systems and by UC Health to pay out the FY 2019-20 participant awards, reconciled the award payments to the approved amounts (CEMRP1) or estimated amounts (CEMRP2) and calculated variances, if any. For CEMRP2, we verified final payouts were reported to the AOC.

We also performed an analysis of FY 2020-21 participant organization, position title and total participants by tier (Appendix A).

**Overall Conclusion**

For CEMRP1, we did not identify any participant award calculation errors in our test sample. We verified that state funds were not used for award payouts and that minor changes to the Plan were appropriately approved by the Regents Health Services Committee.

For CEMRP2, we verified that all final award payouts complied with fund restrictions. Internal Audit identified seven participants from two of the medical schools initially were paid with inappropriate fund sources but these were corrected prior to the issuance of this report.

HR Compensation has not yet obtained signed attestations from health system CEOs to attest that the FY 2019-20 CEMRP1 and CEMRP2 final awards were accurate and in compliance with the respective plans. This is a new procedure.
Opportunities for Improvement and Action Plans

1. Not all of the FY 2019-20 and FY 2020-21 documents have been reviewed and approved by the AOC.

   a. FY 2020-21 CEMRP1 objectives have not been reviewed by the AOC.

   The CEMRP1 plan document states “participant objectives will be reviewed prior to the start of the plan year or as soon as possible thereafter.” There are four types of objectives: clinical, long term, institutional, and participant. As of May 21, 2021, the AOC review had not been completed.

   **Action Plan:**

   *HR Compensation will provide the FY 2020-21 objectives to the AOC for their review and provide Internal Audit with supporting documentation.*

   **Target date:**
   *August 30, 2021*

   b. The AOC was not notified of an additional award to one participant.

   One campus identified an award payout error and determined that an additional award was warranted. The campus subsequently processed the award and informed HR Compensation of this issue and the resolution but the AOC was not notified nor did they approve the additional payment.

   **Action Plan:**

   *HR Compensation will obtain AOC approval of the corrected CEMRP1 award.*

   **Target date:**
   *October 15, 2021*

### NOTABLE OBSERVATIONS

- UCSF has significantly more participants in the Plan than any other location.
- Only UCSF, UCSD, and UC Davis have Tier III participants in FY20.
